

EMBL Alumni Meeting Programme

Main Laboratory, Heidelberg, October 21-23, 1999

Thursday, 21 October 1999

14.00-17.30

Iain Mattaj
Michael Ashburner
Isabel Vernos

Welcome and Introductory Remarks
"Drosophila for the Millenium... the Sequence"
"Transport Processes in Cell Organization and Function"

Coffee Break 15.30-16.00

Juan Carlos Izpisua-Belmonte

"Molecular Basis of Asymmetry During
Vertebrate Development"

Anne Ephrussi

"Establishment of Embryonic Polarity by RNA Localization
and Translational Control"

Dinner in the canteen

Friday, 22 October 1999

Morning session, 9.30-13.00

Jean Gruenberg

"Biogenesis, Organization and Functions of Endosomal
Membrane Domains"

Suzanne Eaton

"Planar Polarization of the Drosophila Wing Epithelium"

Coffee break 11.00-11.30

Andrea Musacchio

"Structural Endocytosis"

David Tollervey

"Making and Breaking RNA"

Lunch in the canteen followed by introduction to the Heidelberg Programmes
and/or lab visits (optional)

Afternoon session, 17.00

Fotis Kafatos

"The Scientific Programme of EMBL for 2001-2005:
Science and Finances"

Denis Duboule

"The Alumni Association"

Dinner in the canteen

Evening session

Kai Simons

"My Life at EMBL"

Saturday, 23 October 1999

9.30-13.00

Werner Kühlbrandt
Hermann Steller

"Making Light Work"

"Mechanism and Regulation of Apoptosis"

Coffee break 11.00-11.30

Irmi Sinning

"Roles of SRP-GTPases in Protein Transport"

Patrick Baeuerle

"From Basic Research to Biotech: the Example
of Micrometastatic Disease"

Lunch and excursion till roughly 17.00

EMBL Alumni Meeting

Not an alumnus yet? Still at EMBL?

You are welcome to join in on the activities, too. A limited number of seats will be reserved for in-house people at dinners and the excursion on Saturday afternoon.

Register at www.embl-heidelberg.de/LocalInfo/Alumni (First come, first served)
