

Life at the Periphery:

Mechanobiology of the Cell Surface

2–3 March 2021

Virtual Conference

SPEAKERS

Pól Martin Bendix
University of Copenhagen, Denmark

Daniel A. Fletcher
University of California, Berkeley, USA

Zev Gartner
University of California, San Francisco, USA

Raymond E. Goldstein
University of Cambridge, UK

Olivier Hamant
École Normale Supérieure de Lyon, France

Henrik Jönsson
University of Cambridge, UK

Anne-Marie Krachler
The University of Texas Health Science Center at Houston, USA

Wanda Kukulski
University of Bern, Switzerland

Lisa Manning
Syracuse University, USA

Nicolas Minc
Institut Jacques Monod, France

Anne-Cécile Reymann
Institute of Genetics and Molecular and Cellular Biology, France

Aurélien Roux
University of Geneva, Switzerland

Bénédicte Sanson
University of Cambridge, UK

Anđela Šarić
University College London, UK

Anna Marie Sokac
University of Illinois at Urbana-Champaign, USA

Howard Stone
Princeton University, USA

Cécile Sykes
CNRS, Institut Curie, France

Marcus J. Taylor
Max Planck Institute for Infection Biology, Germany

Abstract Submission Deadline
13 January 2021

Registration Deadline
08 Feb 2021

ORGANISERS

Alba Diz-Muñoz
EMBL Heidelberg, Germany

Zemer Gitai
Princeton University, USA

KC Huang
Stanford University, USA

Ewa Paluch
University of Cambridge, UK

All talks will be pre-recorded and made available to registered participants 10 days before the start of the conference.

www.embo-embl-symposia.org

Abstract submissions for poster presentation will be accepted until the registration deadline.

Additional speakers will be selected from abstracts.
