

Agilent Technologies

ABOUT

Supercharge Your Cell Research

As a global leader in analytical and clinical laboratory technologies, Agilent is committed to helping our scientists bring great science to life. Leveraging more than 50 years of analytical and clinical laboratory expertise, we deliver trusted answers to our customers' most critical questions and challenges. We passionately help scientists and clinicians make the smallest everyday advancements and life-changing discoveries that advance the quality of life.

Cell Imaging & Microscopy for Automated Image Capture and Analysis

Discover the future of scientific exploration. Join us as we unveil the 406FX high-throughput washer and the versatile Cytation C10 confocal imaging reader. From biochemical assays to phenotypic studies, these cutting-edge tools empower researchers with flexibility and precision in cell analysis and beyond. Don't miss this opportunity to revolutionize your lab workflows.
