

BioMalPar XIX: biology and pathology of the malaria parasite

KEYNOTE SPEAKERS

Sarah Auburn

Menzies School of Health Research, Australia

Maria Bernabeu

EMBL Barcelona, Spain

Stéphanie Blandin

National Institute for Health and Medical Research (Inserm) and Institute of Molecular and Cell Biology, France

Aubrey Cunnington

Imperial College London, UK

Elizabeth Egan

Stanford University, USA

Melissa Kapulu

University of Oxford and KEMRI Wellcome Trust, Kenya

Geoff McFadden

University of Melbourne, Australia

Jacquin Niles

Massachusetts Institute of Technology, USA

Kamija Phiri

University of Malawi, Malawi

Olivier Silvie

National Institute for Health and Medical Research (Inserm) and Sorbonne University, France

Rita Tewari

University of Nottingham, UK

Tuan Tran

Indiana University School of Medicine, USA

ORGANISERS

Borko Amulic

University of Bristol, UK

Michelle Boyle

QIMR Berghofer Medical Institute, Australia

Emily Derbyshire

Duke University, USA

Markus Ganter

Heidelberg University, Germany

TOPICS

- Clinical and field studies
- Systems biology from molecules to cells, physiology, and pathobiology
- Evolution and ecology
- Immunology and vaccinology
- Transmission and vector–parasite interactions
- New topics and tools for malaria research and future innovation

23 – 25 May 2023
