

METTLER TOLEDO

METTLER TOLEDO

ABOUT

Laboratory Solution for Life Science

METTLER TOLEDO is a leading global manufacturer of precision instruments. The Company is the world's largest manufacturer and marketer of weighing instruments for use in laboratory, industrial and food retailing applications. The Company also holds top-three market positions in several related analytical instruments and is a leading provider of automated chemistry systems used in drug and chemical compound discovery and development. In addition, the Company is the world's largest manufacturer and marketer of metal detection systems used in production and packaging. Additional information about METTLER TOLEDO can be found at www.mt.com.

INDUSTRY TALK

Felix Kurzemann – Sales Expert Pipettes METTLER TOLEDO

Enhance your cell culture workflow – save time and money

Life Science workflows can be challenging, especially if they involve working with cell culture. One mistake or a poorly chosen instrument can cause severe errors. These lead to delayed results, additional work and lost time and money. Every scientist is therefore keen to do work properly and reliably not only regarding his or her skills but also by choosing the right instruments and applications for their experiments.

In this talk we will guide you through a typical cell culture workflow and depict the instruments with which Mettler Toledo can help you to perform quick though reliable experiments. With state-of-the-art devices and techniques, cell culture work becomes much less of a challenge, helping you to save time and money. Furthermore, this talk will give you insights into Lab-Software which helps you to maintain and collect data in a reliable way and also into the topic of sustainability in the lab, especially on how you can reduce plastic waste significantly.
