

Programme of the 14th public MMPU Research Day

14 November 2014, 13 – 18.30 o'clock

Frauen & Hautklinik, Conference Room Großer Hörsaal 272, INF 440,
69120 Heidelberg

13:00 – 13:45

Molecular determinants of the excitability of mammalian peripheral thermoreceptors

Félix Viana, Instituto de Neurociencias de Alicante, Spain – Guest of MMPU group Chronic Pain

13:45 – 14:30

Genome meets proteome: global and locus-specific chromatin organization in embryonic stem cells

Jeroen Krijgsveld, EMBL Heidelberg – Guest of MMPU group Stem Cells & Aging

14:30 – 14:50

High-resolution structural analysis of immature retroviral capsid in intact viruses

Florian Schur – MMPU group HIV 1 formation and its inhibition

14:50 – 15:20

Coffee break

15:20 – 16:05

From genomic variation to molecular mechanism

Jan Korbelt – New MMPU group Molecular Pediatric Oncology

16:05 – 16:25

Understanding drug sensitivity in lymphoproliferative diseases

Sascha Dietrich – Heidelberg Research Center for Molecular Medicine, HRCMM

16:25 – 16:45

TLR2/6 control a novel inflammatory pathway for rapid hepcidin-independent hypoferremia

Claudia Guida – MMPU group Iron Homeostasis

16:45 – 17:05

Dysregulation of epithelial miR-148b contributes to goblet cell metaplasia, inflammation and alveolar damage in cystic fibrosis lung disease

Raman Agrawal – MMPU group Cystic Fibrosis

17:05 – 17:25

Molecular alterations in mismatch repair-deficient crypt foci

Matthias Kloor – MMPU group Cancer Early Detection

17:25 – 18:30

Snacks and Get-together
